**Lip make-up composition comprising a nonelastomeric or styrene-free
film-forming linear ethylenic block copolymer and an organic liquid
medium forms a coating with a defined staying power index**

Abstract (Basic): *WO 200428489* A2

NOVELTY - Lip make-up composition comprising a nonelastomeric or
styrene-free film-forming linear ethylenic block copolymer and an
organic liquid medium forms a coating with a staying power index (%
retention of color contrast after contact with water and oil in a
defined test) of at least 80%.

DETAILED DESCRIPTION - An INDEPENDENT CLAIM is also included for a
cosmetic kit comprising a composition as above in a compartment of a
container with a closure.

USE - For lip make-up.

ADVANTAGE - The composition has good staying power on contact with
liquids, especially during a meal.
